

POLE SYRINGES

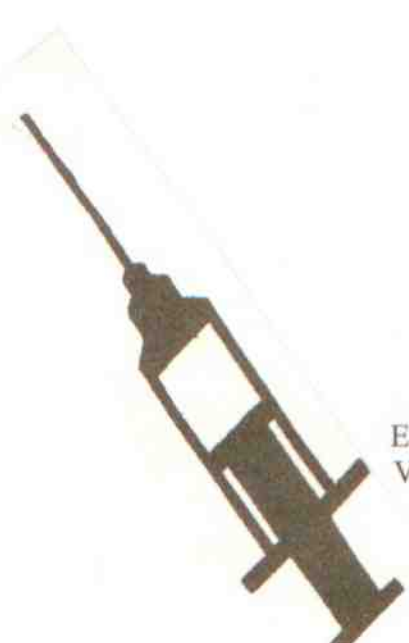

All Metal Parts are aluminum and have a lifetime warranty

Plastic parts are standard monoject 12cc syringe, capable of using any gauge or length screw-on style needle

Comes with a 16 gauge 1" needle.

Metal tip of syringe is adjustable: with a 1" needle you can adjust needle exposure from 1/8" to 7/8".

Syringe attaches to any standard broom or painter's stick

Thank You
